Sahibzada Ajit Singh Nagar, Punjab, India

PROFESSIONAL SUMMARY

Information Technology undergraduate with hands-on industry experience through a summer internship at Telecommunications Consultants India Ltd. Strong foundation in Data Structures & Algorithms, C, C++, Python, and Machine Learning, combined with practical skills in Requirements Analysis and data manipulation using Pandas. Demonstrated ability to apply analytical thinking to real-world problems and quickly learn new technologies. Seeking a Software Engineering role to contribute to high-impact, large-scale systems.

EXPERIENCE

Telecommunications Consultants India Ltd. (TCIL)

Chandigarh, India

Summer Intern

May 2026 – July 2026

- Conducted requirements analysis for a Logistic Delay Analysis initiative, translating business needs into clear technical specifications
- Utilized Python and Pandas to clean, analyze, and process operational datasets, improving data accuracy for reporting
- Collaborated with cross-functional teams to support the initiative, gaining exposure to enterprise-scale telecom systems
- Applied problem-solving and analytical skills to identify and document delivery delay patterns, contributing to the Logistic Delay Analysis

EDUCATION

Chandigarh Engineering College

Chandigarh, India

Bachelor of Technology in Information Technology

July 2024 – July 2028

- CGPA: 7.0/10
- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Machine Learning, Database Management Systems, Operating Systems

M.L.T. College

Saharsa, India

Intermediate (Class XII)

April 2022 – April 2024

- Percentage: 73.2%

Eklavya Central School

India

Matriculation (CBSE)

2021 – 2022

- Percentage: 78.2%

TECHNICAL SKILLS

Programming Languages: C, C++, Python, SQL

Core Competencies: Machine Learning, Data Analysis, Data Structures & Algorithms, DBMS, OOP, Problem Solving

Machine Learning: Supervised Learning, Unsupervised Learning, Model Evaluation, Data Preprocessing, Feature Engineering, Scikit-learn, Pandas, NumPy

Databases: MySQL, PostgreSQL, SQLite

Developer Tools: Git, GitHub, VS Code, Linux/Unix, Streamlit

Languages: English (Professional Working), Hindi (Full Professional)

Soft Skills: Problem Solving, Communication, Teamwork, Time Management, Adaptability, Critical Thinking

PROJECTS

Movie Recommendation System | Python, Machine Learning, Pandas

2026

- Developed a Machine Learning-based Movie Recommendation System that suggests movies based on user preferences and movie similarity
- Implemented a content-based recommendation approach using movie features (genre, cast, keywords) to identify and recommend similar titles
- Used Python and Pandas for data preprocessing, cleaning, and analysis to prepare the movie dataset for similarity computation
- Applied data-driven similarity analysis techniques to deliver relevant, personalized recommendations

ACHIEVEMENTS & ACTIVITIES

Competitive Programming

Ongoing

- Active on LeetCode with 150+ problems solved
- Participated in coding competitions, applying algorithmic problem-solving under time constraints

Academic & Leadership

- Completed academic and self-directed learning in Machine Learning, Data Structures & Algorithms, DBMS, and Python/C++ programming

CERTIFICATIONS & LEARNING

Participated in MINDMATRIX, a technical competition organized by the college, demonstrating problem-solving, technical knowledge, and teamwork
